

SCN2A SUMMER SEMINAR

Greetings Team!

We are gearing up for the SCN2A Summer Seminar. In contrast to our Biennial SCN2A Family and Professional Conference that is very heavy on science and research, the sessions will be focused on clinical topics and everyday therapies. In addition to the talks, we will be offering several opportunities for families to participate in research on site.

This will be a fun gathering for families and we are hoping you will join us and consider bringing your family along! We are staying in a hotel that has a pool and is walking distance to Legoland!

As you have mentioned in the past, it is invaluable to your work to have the opportunity to meet and talk with families affected by SCN2A. Our patient and professional community has grown and strengthened over the last 6 years and we are confident this will be our best-attended event. We are working on the agenda now, *so please let me know if you have a topic you feel would fit this program.*

When: Friday, July 31 to Saturday, August 1

Where: The Hilton Columbus at Easton Columbus, OH

Thank you!
